

# GINS FROM THE GOLD COLLECTION

## Inaurum Verita 'Gold'

Gold is a complex gin in which resin (juniper), citric (tangerine), fresh flowers (violet flowers, gentian violet and poppies), spicy (ginger, coriander) and balsamic aromas (almonds and vanilla) live together and blend with Angelica root to balance. A delicate hint of juniper in the bottom through which tangerine and fresh flowers notes emerge powerfully to balance a nice end of almonds and vanilla, thus making Gold an authentic adventure for the most expert and curious palates.

## Stovells

Stovell's Wildcrafted Gin was created by the wonderful folk at the award-winning Stovell's restaurant in Chobham, Surrey! Crafted by Stovell's Bar Manager Geyan Surendran and Chef Patrons Fernando and Kristy Stovell, their Wildcrafted Gin is made using a rotary evaporator, organic wheat spirit and a whole host of interesting, sustainably foraged botanicals.

## Bottega Bacur

Distilled Dry Gin Bacûr owes its unique character to the botanicals used to produce it. Juniper berries, sage leaves and lemon zest are left to macerate in a solution of water and alcohol for a long time; after that, double distillation takes place, clearing the liquid from possible unwanted hints and leading to an elegant distillate with a fine, clean bouquet.

## Bertha's Revenge Irish Milk Gin

The concept originates from Ballyvolane being the Gaelic for 'the place of springing heifers' and botanicals include juniper, coriander, bitter orange, grapefruit, sweet orange, lemon, lime, liquorice, orris, angelica, cinnamon, cardamom, cloves, cumin, almond, elderflower, and sweet woodruff.

## Citadelle Reserve

Pale, limpid gold. Nose: Herbaceous notes of dried spices, but also coconut shell, tobacco and orange flower. The second nose brings out notes of juniper berry and green tea. Mouth: The first note is silky, abundant, a bit spicy/peppery, with hints of dried tobacco. Midtasting, additional notes of lemon zest, ginger and almond. A lasting finish.

## Buss No 509

A very 'citrus-forward' Belgian gin here from the Buss No.509 range, released as part of a series of choice cut gins in mid-2016. The Master Cut is brimming with orange and grapefruit notes, and has been bottled at a generous 45% ABV.

## Buss No 509 Pink Grapefruit

Packed with citrus notes, this Buss No.509 Gin features red Californian grapefruit as a botanical, along with Juniper, Coriander, Liquorice, Angelica, Vanilla, Cardamom, Iris, Orange and Lemon. Bright and flavoursome, this Belgian gin would make for a fine aperitif.

## Botanic W&H

Botanic Ultra Premium London Dry Gin is produced by winemakers William & Humbert, to a higher strength than their standard Premium London Dry Gin. It's made with some rather intriguing botanicals, including mandarin, almond and Buddha's Hand, a type of citrus fruit. The bottle is rather interesting too - it's almost a cube!

## Pothecary

Pothecary Gin carefully blends the individually distilled components to create its unique aroma and flavour. The initial burst of soothing lavender aroma gives way to refreshing citrus, supported by Juniper, leading to a hint of Black Mulberry sweetness in tandem with the black tea and honey scent from the Tilia flowers. A smooth, Juniper led gin, with attractive layers of floral Lavender and honeyed Tilia, fresh notes of lemon, and a subtle richness from the Black Mulberries on the palate

## Pinkster

First launched in July 2013, 5 botanicals are used to create Pinkster (the "Agreeably British Gin"). The brainchild of Stephen Marsh, Pinkster is made with delicious raspberries which are steeped in the gin, lending it both its pink hue and subtle fruitiness. Those raspberries don't just go in the bin afterwards - goodness, no! Those gin-soaked little rascals go on to make Pinkster's Boozy Berries and Gin Jam!

## Young Tom Malt Gin

From the Eccentric Gin range in Wales comes Young Tom Gin. This is ingeniously crafted using an IPA wash, vapour infused with its botanicals and naturally sweetened before being barrel-aged for six weeks to allow the flavours to bloom.

## St George 'Terroir'

However, the wonderful folks at St. George Spirits have provided us the next best thing, the Terroir Gin! Now in a 70cl bottle, its botanical selection of Douglas Fir, Coastal sage and Californian bay laurel gives it a magical nose that makes you really feel like you're stood in a Californian forest

## Williams Chase 'Elegant'

An English gin, distilled at Herefordshire, from the same company that make Chase potato vodka. This is distilled from organic apples, and has a lovely crisp, fruity flavour. Sweet with green apple laces, a little liquorice, juniper and elderflower. Perhaps even a hint of toffee...?

## Jinzu

Jinzu Gin brings English and Japanese traditions together to create an exciting, intriguing spirit. It's made with a blend of English gin (featuring juniper, coriander, angelica, yuzu and Japanese cherry blossom as botanicals) and sake, which brings a luxurious, creamy mouth feel and a subtle, compelling sweetness to its flavour profile.

## IOW Victory Gin

The Isle of Wight Distillery is proud to be working in partnership with The National Museum of the Royal Navy to produce, under license, a unique Navy Strength Gin. Named after HMS Victory, Nelson's illustrious flagship, a percentage of the sales go to support the ongoing restoration of the world's most famous warship. HMS Victory Navy Strength Gin has a higher concentration of botanicals resulting in a more intense flavour and is bottled at gunpowder proof with an ABV of 57%.

## Tanqueray N° 10

Passion and attention to detail in perfect measure, is a recipe for exquisite results. Tanqueray N° TEN, named after the stills of its origin, is small batch gin crafted using fresh citrus fruits. An exquisite citrus burst in every sip, best enjoyed with premium tonic water and a slice of pink grapefruit.

## Silent Pool

Silent Pool Gin is produced on the Albury Estate in the Surrey Hills, right next to the Silent Pool, a beautiful, mysterious spring-fed lake - what a place to create a gin! The gin itself features 24 botanicals, including kaffir lime, chamomile, local honey and lavender, among others, resulting in a subtly sweet though intricately-balanced tipple.

## Empress 1908

Colour-changing or not, there's something about that bleach-bottle-hue that has us heading back towards the door just as soon as we arrive for the first date, and despite the promise of all-natural ingredients, we can't help but wince in anticipation of the chemical bubblegum syrup taste set to hack at our senses. We're always happy to be proved wrong, though, so it was with little persuasion that we agreed to review Empress 1908 Gin, described by its very own branding team as having "an impossibly lush and vivid indigo blue."

## Buss No.509 Master Cut

Oodles of zesty orange and grapefruit pith, with subtle touch of lemon and angelica, Buss No. 509 Master Cut is brimming with citrus notes and delicate zesty flavours. Released as part of a series of Choice Cut gins in mid 2016, Buss No.509 Master Cut can only be described as an exceptional tasting gin

## Warner Edwards Rhubarb Gin

Made using a crop of rhubarb originally grown in the kitchen garden of Buckingham palace during the reign of Queen Victoria, extracting the juice using a traditional fruit press and blending with Harrington Dry Gin to create an alluring pink gin that is voluptuous on the palate

## Fifty Pounds Gin

Small batch distilled, Fifty Pounds Gin prides itself on purity, clarity and quality of flavour. It's complex array of botanicals creates a full and sweet palate, with stages of flavours to delight the senses. Beginning with citrus notes and sage-y juniper hints, it opens up to lavender flavours and finishes on a delicately bright spicy aftertaste

## Slingsby

Made with the finest locally sourced Yorkshire botanicals, Harrogate aquifer water and pure single grain spirit, Slingsby London Dry is a quintessentially English gin. An initial burst of refreshing citrus and grapefruit gives way to juniper, sweet ceciley and Taylor's of Harrogate jasmine scented green tea

## Berkeley Square No.8

A limited release of Berkeley Square Gin, at a higher strength of 46%. Named after one of the capital's most prestigious addresses, the brand is a super-premium gin from G & J Greenall, using botanicals including basil, lavender and kaffir lime leaves.

## Warners Edwards Honey Bee

Following on from their Melissa Gin, the second release in Warner Edwards' Botanical Garden range is the Honeybee Gin. It's built around an infusion of locally-sourced honey, including honey from their very own hives on their farm! Other botanicals include a trio of citrus peels (grapefruit, orange and lemon), elderflower, hibiscus, cinnamon and cardamom, among others.

## Williams Chase Pink Grapefruit

Love your gin to have up-front deliciousness of grapefruit zest? Well Williams Chase have just the tippie for you - their very own Pink Grapefruit Gin! Perfect for a G&T on a hot summer afternoon, this is bursting at the seams with exciting grapefruit notes, with a handful of peppery juniper notes at its core.

## St.James No.3

A beautiful looking gin from Berry Bros. Made to a special recipe, the name No.3 refers to the address of BARB - Number 3, St James's Street. With juniper at its heart, it's also made with three fruits and three spices using copper pot stills.
